

UK PASSIVHAUS OPEN DAYS 2014

7 - 9 November

A 120 year old terraced house has been successfully retrofitted to the EnerPHit standard. The Victorian shop-conversion had not been lived in or maintained for over 30 years and was in need of a deep retrofit to bring it into the 21st century. The house was insulated internally to retain the original appearance of the façade and to meet stringent planning requirements.

WHEN

FRI 7	N/A
SAT 8	10am, 11.30am, 1pm, 2.30pm, 4pm
SUN 9	N/A

10 people/ tour.
