

2018 UK PASSIVHAUS OPEN DAYS

09 - 11 November

WHEN

FRI 09th 10am - 3pm

SAT 10th 10am - 3pm

SUN 11th 11am - 3pm

This is a building site, so please dress appropriately. Warm clothing and boots are advised.

Currently under construction, Bruadar is an architect designed upside down house aiming for Passivhaus certification in rural Perthshire. The project is being built by EcoNekt using their unique passivhaus building system incorporating Izodom ICF. Foundations are complete and wall construction has started. Completion is expected during April 2019.
