

UK PASSIVHAUS OPEN DAYS 2019

28 - 30 June

WHEN

SAT 29th 10:30am

A single guided tour. Booking essential.

This 'self-declared' Passivhaus was modelled in PHPP but did not undergo the certification process due to client's budget. The architect is confident the scheme meets all Passivhaus criteria. Completed in 2019, the six bed home has an insulated raft concrete base and timber frame imported from Latvia with plasterboard attached.
