

FREQUENTLY ASKED QUESTIONS

Call for entries!

Can I enter more than 1 project?

Yes! If the schemes meet full Passivhaus/ EnerPHit criteria and have performance evaluation of at least 1 year, there is no restriction on how many projects a single applicant may enter.

Can I enter a Low Energy Building that is just shy of meeting Passivhaus?

The awards are only open to certified Passivhaus/ EnerPHit schemes that have met all criteria.

Can I enter the same project in multiple categories?

A project may only be entered in a single category.

Is there a cost to enter?

We are all about knowledge sharing, and the awards are free to enter for eligible schemes. Projects that are shortlisted to phase II must create a 2-minute case study video as part of their final presentation.

Do I have to use the submission template?

The submission guidance notes and templates are there as prompts. We recommend using them to ensure you fulfil all submission criteria and maximise your chance of progressing to the next phase of the competition. But if all the requested information is easily found in your submission, we will accept alternative slides.

I do not have a year's worth of data monitoring – may I still apply?

These awards sway heavily in favour of proven in-use building performance. We are looking for both summer and winter performance. In extreme circumstances a minimum of 6 months may be acceptable. Please contact yogini@passivhaustrust.org.uk to discuss this further.

Will the Awards Ceremony be free to attend?

As we are holding the Awards ceremonies online – the events will be free and open to all. Registration will be essential. There will be one live online afternoon session for each category taking place between late June – mid July. Exact dates TBC.
